PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience in creating dynamic, responsive web applications. Proficient in a variety of technologies including React.js, Next.js, Node.js, and MongoDB, as well as integrating RESTful APIs. Passionate about problem-solving, optimizing user experience, and collaborating in team environments to deliver high-quality software solutions. Eager to contribute my technical skills and creativity to challenging projects in software development.

EDUCATION

- Marathwada Mitra Mandal's College of Engineering** Pune, India
B.E. in Artificial Intelligence and Data Science (CGPA: 9.43) 2022 – Present

EXPERIENCE

- Coneixement India Pvt Ltd** Pune, India
Full Stack Development Intern Jan 2025 – Present
 - Developed **College Shodh**, a responsive web application using **Next.js**, enhancing user engagement and accessibility.
 - Designed and executed RESTful APIs for seamless communication between frontend and backend systems, improving application performance.
 - Collaborated with cross-functional teams to deliver key features such as user authentication, data filtering, and real-time search.
 - Implemented testing strategies for both frontend and backend to ensure reliability and improve application stability.
- Cognifyz Technologies** Pune, India
Full Stack Development Intern Sep 2024 – Oct 2024
 - Built end-to-end full-stack solutions for clients, ensuring alignment with business requirements and technical standards.
 - Used **React.js**, **Node.js**, and **MongoDB** to develop scalable, maintainable, and secure web applications.
 - Applied CRUD operations and integrated third-party APIs to enhance the functionality of web applications.
- Google Developer Student Club** Pune, India
Full Stack Web Developer 2023 – Present
 - Designed visually appealing and functional websites with a strong focus on UI/UX design using **React.js** and **Tailwind CSS**.
 - Created and maintained RESTful APIs for dynamic content fetching and management of user data.
 - Collaborated with other developers and designers to create intuitive interfaces and smooth user experiences.

PROJECTS

- Anonymous Messaging Platform** GitHub: github.com/Niraj123466
Next.js, NextAuth, Tailwind CSS 2024
 - Created a full-stack anonymous messaging platform with real-time feedback using **Next.js** and **NextAuth** for authentication.
 - Integrated **ChatGPT API** to allow intelligent interaction and personalized responses for users.
 - Implemented features like anonymous user profiles, message threads, and real-time updates for seamless user communication.
- Submission Manager - Content Review System** Website: entechonline.in
Full Stack Development — React.js, Node.js, MongoDB, Tailwind CSS, Nodemailer, multer 2024
 - Developed a **content submission and review system** to streamline the blog submission, review, and approval process.
 - Designed and executed a **role-based access control (RBAC)** system for secure user authentication and authorization.
 - Optimized the platform's SEO with **server-side rendering (SSR)** and structured metadata for better search engine rankings.
 - Improved user experience with a **responsive UI** using Tailwind CSS, ensuring seamless access across all devices.
- CollegeShodh - College Search Platform** Website: collegeshodh.in
Full Stack Development — Next.js, Arcjet, Vercel, Tailwind CSS, Sanity, Material UI 2024
 - Developed a **college search and comparison platform** using Next.js, helping students filter colleges based on state, city, NAAC rating, NBA accreditation, and NIRF rank.
 - Built a **dynamic filtering API** to allow efficient college searches and sorting based on multiple parameters.
 - Executed **bot protection and rate limiting** using Arcjet to secure the platform from automated attacks and ensure fair usage.
 - Enhanced SEO with **robots.txt**, meta tags, and structured data to improve search engine visibility and organic traffic.
 - Deployed the application on **Vercel** with **continuous deployment**, ensuring high availability and seamless updates.

LEADERSHIP

Development Co-Head at Google Developer Student Club 08/2024 - Present

- Working towards building amazing projects in a team and helping students acquire skills by guiding them.

Web Dev Head 06/2024 - Present

Network of Enthusiasts Understanding Research in AI

- Organizing sessions to train a community of students.

SKILLS

- **Programming Languages:** C++, Python, JavaScript, TypeScript, SQL
- **Web Development:** React.js, Next.js, Node.js, Express.js, MongoDB, Appwrite, RESTful APIs
- **DevOps and Tools:** Docker, Git, GitHub, Agile Development, Postman
- **Cloud Services:** AWS, Firebase, DigitalOcean
- **Soft Skills:** Teamwork, Time Management, Problem Solving, Communication

ACHIEVEMENTS

- 5-star coder on Hackerrank in **C++** and **Python**.
- Solved **140+** **problems** on LeetCode, showcasing problem-solving and algorithm skills.
- Completed certifications in **Full Stack Development**, **React.js**, **Node.js**, **Docker**, **Cloud Computing**, and **MongoDB**.
